WESTERN * PARKWAY

Thank You

We thank you for taking the time to review tonight's materials and for participating in the Western Parkway and Five Points Interchange Project

Your insights and suggestions are valuable and greatly appreciated. Your comments, along with those of the Federal and State environmental resource and regulatory agencies will be considered to further refine the alternatives as we move forward with the preparation of the Draft Environmental Impact Statement and toward reaching an informed decision on a recommended Preferred Alternative for the Western Parkway and Five Points Interchange
